ABDALLAH SHEE

Full-Stack Software Engineer

TypeScript · Next.js · React · PostgreSQL · Drizzle ORM · Python (FastAPI)

Nairobi, Kenya • +254 796 515 302 • abdallahshee664@gmail.com

Portfolio: abdallahshee.dev

PROFESSIONAL SUMMARY

Full-stack software engineer with 4+ years building end-to-end web applications with TypeScript across the client, server, and database layers — primarily React, Next.js, PostgreSQL, and Drizzle ORM, complemented by high-performance backend services in Python (FastAPI). Focused on understanding the business problem first, then engineering systems that solve it reliably and scale with the product.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python

Frontend: React, Next.js

Backend: Node.js, Express.js, FastAPI

Databases: PostgreSQL, Drizzle ORM

Security: Authentication & Authorization (RBAC, OAuth)

Cloud & Infrastructure: Vercel, Serverless

Practices: Git/GitHub, CI/CD, Agile

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer — Self-employed

Jun 2026 – Present

- Design and build full-stack web applications end-to-end with TypeScript, React, and Next.js for independent clients.
- Develop RESTful APIs in Python (FastAPI) and Node.js (Express.js), scoped to each client's specific requirements and constraints.
- Design and maintain relational databases in PostgreSQL with Drizzle ORM for type-safe, efficient data access.
- Implement secure authentication and role-based access control (RBAC) across client applications.
- Build responsive, accessible, high-performance UIs using modern React patterns and component-based architecture.

Full-Stack Developer — Quantum Plus Ltd

Jun 2023 – Feb 2026

- Built and maintained production-grade full-stack applications with Next.js, Node.js, Express, TypeScript, and PostgreSQL, supporting multi-user SaaS and e-commerce platforms.
- Designed type-safe REST APIs with Express.js middleware layers to support sustained growth in platform usage.
- Implemented multi-tenant role-based access control (RBAC) spanning multiple distinct user roles and permission levels.
- Led query and performance optimization on PostgreSQL, reducing page load times and improving data integrity across customer-facing features.

Junior Web Developer — Swahilipot Hub Foundation

2020 – 2023

- Built responsive, interactive UI components with React and TypeScript, translating UI/UX designs into functional, cross-browser-compatible code.
- Partnered with designers and backend developers to integrate APIs and ship cohesive end-to-end features.
- Managed database integration with PostgreSQL to support reliable CRUD operations across core application features.
- Participated in code reviews and Git-based collaboration, contributing to measurable improvements in code quality and delivery speed.

EDUCATION & CERTIFICATIONS

Bachelor of Business Information Technology

Dedan Kimathi University of Technology, Nyeri

Certificate in Software Development

Jan 2022 – Apr 2022

Power Learn Project Academy, Nairobi
